JOURNAL OF
Inorganic Biochemistry

Volume 55, Number 1, 1994

Contents

W. K. SUBCZYNSKI (Krakow, Poland), J. WOJAS (Milwaukee, Wisconsin), V. PEZESHK and A. PEZESHK (Moorhead, Minnesota)
Effects of Probucol on Phase Transition and Fluidity of Phosphatidylcholine Membranes: A Spin Label Study **1**

P. G. RAMAPPA and K. G. SOMASEKHARAPPA (Mysore, India)
Structure and Antimicrobial Activity of Some New Diphenylpyraline Complexes of Iron (III) Chloride, Nitrate, Sulphate, and Thiocyanate **13**

H. GILMAN and D. W. L. HUKINS (Manchester, United Kingdom)
Seeded Growth of Hydroxyapatite in the Presence of Dissolved Albumin **21**

H. GILMAN and D. W. L. HUKINS (Manchester, United Kingdom)
Seeded Growth of Hydroxyapatite in the Presence of Dissolved Albumin at Constant Composition **31**

W. BAL, H. KOZLOWSKI, M. LISOWSKI (Wroclaw, Poland), L. D. PETTIT, R. ROBBINS and A. SAFAVI (Leeds, United Kingdom)
A Dramatic Change in the Interaction of Cu (II) with Bio-Peptides Promoted by SDS—a Model for Complex Formation on a Membrane Surface **41**

T. KISS, I. SÓVÁGÓ (Debrecen, Hungary), R. B. MARTIN (Charlottesville, Virginia), and J. PURSIAINEN (Oulu, Finland)
Ternary Complex Formation between Al(III)-Adenosine-5′-Phosphates and Carboxylic Acid Derivatives **53**

I. SÓVÁGÓ, C. BERTALAN, L. GÖBL (Debrecen, Hungary), I. SCHON and O. NYÉKI (Budapest, Hungary)
Copper (II) Complexes of Low Molecular Weight Derivatives of Thymopoietin **67**

W. MARET (Boston, Massachusetts)
Book Review: Nuclear and Electron Relaxation **77**

Volume 55, Number 2, 1994

Contents

ANA PAULA SOARES FONTES, YUE ZOU, and NICHOLAS FARRELL (Richmond, Virginia)
Synthesis of Functionalized Platinum Complexes Containing Dimethylsulfoxide as Leaving Group. Observation of Novel Steric Control of Intrastrand Versus Interstrand Cross-Linking by Use of Bulky Ligands **79**

SANAULLAH, GEORGE S. WILSON (Lawrence, Kansas), and RICHARD S. GLASS (Tuscon, Arizona)
The Effect of pH and Complexation of Amino Acid Functionality on the Redox Chemistry of Methionine and X-Ray Structure of [Co $(en)_2$(L-Met)] $(ClO_4)_2.H_2O$ **87**

MIN DING, PETER M. GANNETT, YONGYUT ROJANASAKUL (Morgantown, WV), KEJAN LIU (Hanover, NH), XIANGLIN SHI (Bethesda, Maryland)
One-Electron Reduction of Vanadate by Ascorbate and Related Free Radical Generation at Physiological pH **101**

FIKRAT I. ABDULLAEV and GERALD D. FRENKEL (Newark, New Jersey)
Time-Course of Inhibition of Cellular Nucleic Acid Synthesis by Selenite **113**

JUN-ICHI UEDA, TOSHIHIKO OZAWA (Chiba-shi, Japan), MAKIKO MIYAZAKI, and YUMIKO FUJIWARA (Tokyo, Japan)
Activation of Hydrogen Peroxide by Copper(II) Complexes with Some Histidine-Containing Peptides and Their SOD-Like Activities **123**

JOHN JOSEF MOLENDA, MARK A. BASINGER, TIMOTHY P. HANUSA, and MARK M. JONES (Nashville, Tennessee)
Synthesis and Iron(III) Binding Properties of 3-Hydroxypyrid-4-Ones Derived from Kojic Acid **131**

G. ALZUET, S. FERRER, J. BORRÁS (Valencia, Spain), and JOHN R. J. SORENSON (Little Rock, Arkansas)
Anticonvulsant Properties of Copper Acetazolamide Complexes **147**

KAZUNARI MATSUMURA and MAKOTO KOMIYAMA (Tokyo, Japan)
Hydrolysis of Phosphatidylinositol by Rare Earth Metal Ion as a Phospholipase C Mimic **153**

Volume 55, Number 3, 1994

Contents

V. DUCROS, M. J. RICHARD and A. FAVIER (Grenoble, France)
The Distribution of Selenium in Human Plasma Proteins for 24 Hours after Ingestion of ^{74}Se (in Sodium Selenite Form) **157**

ZHANRU LIAO, WANQIAO LIU, JIANPING LIU, YIQIN JIANG, JUEN SHI and CHANGLIN LIU (Wuhan, Peoples Rep. of China)
A Study of Superoxide Dismutase Activity of Some Model Compounds **165**

TREVOR W. HAMBLEY (Sydney, Australia) and LORRAINE K. WEBSTER (Melbourne, Australia)
The Preparation and In Vivo Activity of L-and D-O-Methyl-Methionine-Dichloroplatinum(II). The Chrystal Structure of the L-Enantiomer **175**

SALAH S. MASSOUD (Safat, Kuwait)
Adenosine 5′-Triphosphate (ATP) Hydrolysis Promoted by Aqua-Amine-Cobalt(III) Complexes. Patterns of Reactivity **183**

TAKESHI SAKURAI (Ishikawa, Japan)
Electron-Transfer from Cytochrome *c* to Ascorbate Oxidase and Its Type 2 Copper-Depleted Derivatives **193**

HELEN T. CHIFOTIDES, KIM R. DUNBAR (East Lansing, Michigan), NIKOS KATSAROS and GEORGE PNEUMATIKAKIS (Athens, Greece)
Synthesis, Spectroscopic and Magnetic Resonance Studies of Mercury(II) and Methylmercury(II) Complexes of Azathioprine, a Biologically Active Mercaptopurine Derivative **203**

EVY MANESSI-ZOUPA, SPYROS P. PERLEPES (Patra, Greece), VAGELIS HONDRELLIS and JOHN M. TSANGARIS (Ioannina, Greece)
Transition Metal Complexes of N-(2-Benzamide)Pyridine-2′-Carboxamide, a Potentially Tridentate Ligand Containing One Secondary and One Primary Amide Group: Preparation and Characterization in the Solid State **217**

Volume 55, Number 4, 1994

Contents

A. MATILLA, J. M. TERCERO, (Granada, Spain), Nguyen-Huy Dung, B. VIOSSAT (France), J. M. PÉREZ, C. ALONSO (Madrid, Spain), J. D. MARTÍN-RAMOS, and J. NICLÓS-GUTIÉRREZ (Granada, Spain)
cis-Dichloro-Palladium(II) Complexes with Diaminosuccinic Acid and Its Diethyl Ester: Synthesis, Molecular Structure, and Preliminary DNA-Binding and Antitumor Studies **235**

ELIZABETH ROWATT (London, United Kingdom) and ROBERT J. P. WILLIAMS (Oxford, England)
The Affinity of Phosvitin for Aluminum Measured with the Dye, Chrome Azurol S **249**

A. LATIF ABUHIJLEH (West Bank, Via-Israel)
Mononuclear and Binuclear Copper(II) Complexes of the Anti-Inflammatory Drug Ibuprofen: Synthesis, Characterization and Catecholase-Mimetic Activity **255**

K. MERNISSI-ARIFI, C. WEHRER, G. SCHLEWER and B. SPIESS (Illkirch, France)
Complexation Studies on Inositol-Phosphates. V.Cu^{2+}, Zn^{2+}, Fe^{2+}, and Fe^{3+} Complexes of Some *Myo*-Inositol Triphosphates **263**

FRANK G. RIDDEL and ZHE ZHOU (St. Andrews, Scotland)
Mn^{2+} as a Contrast Reagent for NMR Studies of $^{35}Cl^-$ and $^{81}Br^-$ Transport through Model Biological Membranes **279**

JONG HWA KIM and RUSS HILLE (Columbus, Ohio)
Studies of the Substrate Binding to Xanthine Oxidase Using a Spin-Labeled Analog **295**

Author Index **305**

Subject Index **307**
